Young Guns/C Mini Stock

As has been discussed on several occasions the Young Guns and C Mini Stock cars must idle smoothly – this is stated clearly in the rule book. Several cars currently do not meet these criteria and as a result all cars will have to be corrected by Friday, April 11th, 2008.

B Mini Stock

Stock rear ends for Mustangs only – no Thunderbird rear ends allowed (which are 1.5 inches wider). Also, all lower control arms – front and rear – have to be stock Mustang.

See you next week!
